

How to use GP Basemap in ArcGIS Desktop (ArcMap)

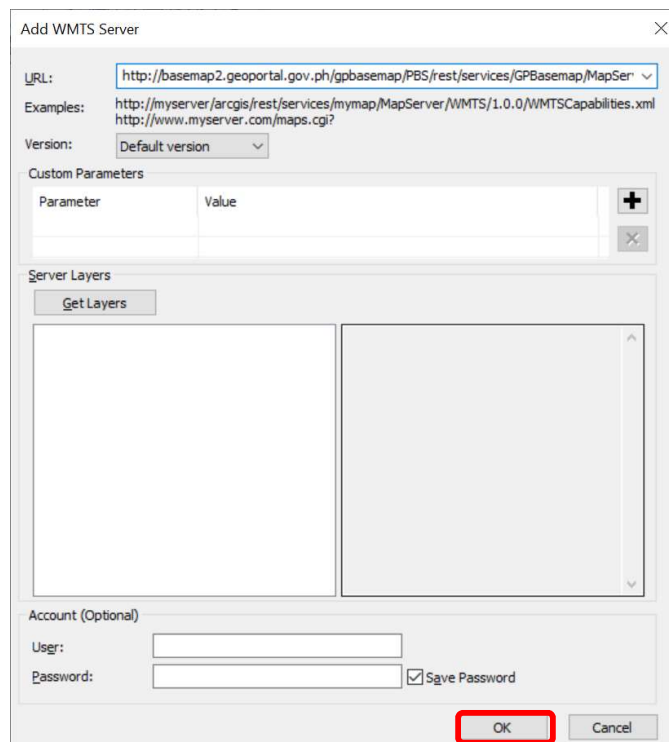

1. Open ArcGIS Desktop (ArcMap). Double click **Add WMTS Server**.

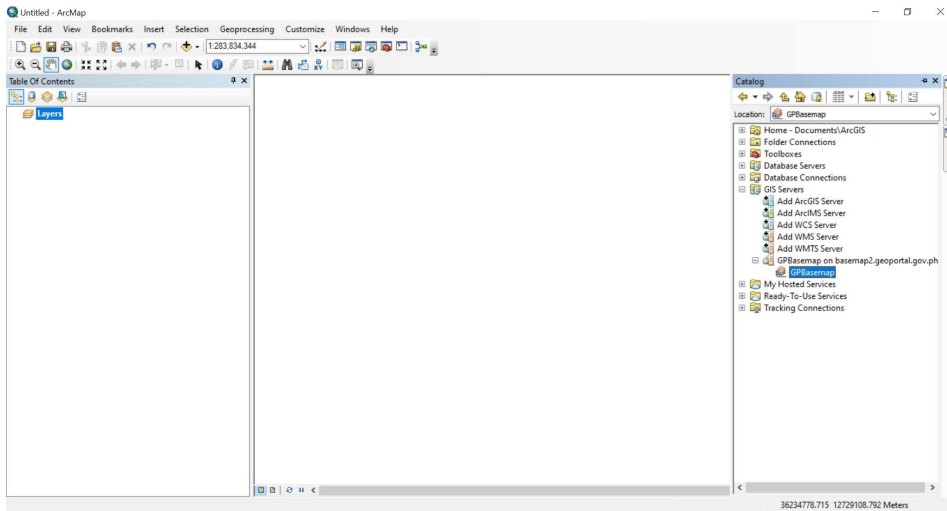

2. In the **WMTS Server Panel**, add the following URL:

<http://basemap2.geoportal.gov.ph/gpbasemap/PBS/rest/services/GPBasemap/MapServer/WMTS/1.0.0/WMTSCapabilities.xml>

3. Click the **Ok** button

The GP Basemap will be added under **GIS Servers**

4. Click and drag the GPBasemap item to the **Map Panel** to display the basemap.
